Title of View **View from "Cherry Orchard" towards the church**

Description of View Looking up the field, to a view of the church spire, Manor House and the Old Shakespeare Inn

From where can it be seen: The footpath from the stile from Cherry Orchard onto the old bypass/Norton Road

What/how far can you see: Back up the hill to the Church Spire, the orchard to the rear of Manor House, and Birds Nest

Notes on what is particularly valuable/interesting about the scene:

The view is not possible from Norton Road, (*apart from the upper deck of a 'bus*) due to the high hedge line. The view of the church etc. only appears as walkers enter the field as they cross the stile
