- Description of Street Scene:

Ragley Road has well built and attractive former Council Houses in a broad, tree lined, road, with grass verges. The houses have maintained their character and any additions and alterations have been in keeping with their original style. The gardens are generous in keeping with the pre- and post-war policies of Council House building.

We suggest that the grass verges including the large area of grass where Ragley Road joins Village Street should be included in the Local Green Spaces register and in addition the Tree marked on the map as T.RR1, an Alder, should be the subject of a Tree preservation order.

The photographs included with this report show the general view from point 03 on the map and a picture of the tree, T.RR1.
